

# MURAT ERTUNC

Full-Stack Developer

## About Me

I am currently working as a Middle Full-Stack Developer, leading a two-person team. My core areas of expertise include PHP and its frameworks, JavaScript and its frameworks, MongoDB, MySQL, MSSQL, and PostgreSQL technologies.

## Technologies

- PHP (Laravel)
- JavaScript (Libraries and Frameworks)
- MySQL, PostgreSQL, MSSQL, MongoDB
- GitHub
- Jira
- AWS, Azure

## Experience

### 2022-Present | KCTEK

As a Middle Full-Stack Developer, I led a two-person team and played a key role in developing applications used by both government institutions (AFAD, Diyanet Akademi...) and numerous universities, serving millions of people, achieving great success.

### 2019-2022 | TUBITAK

As a Software Developer, I developed numerous projects and achieved national success by winning 1st place once and 2nd place twice.
